**TARIFF FORMAT**

- A. Page Numbering** - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 14 and 15 would be 14.1.
- B. Page Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14. Because of various suspension periods, deferrals, etc., the most current page number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the page currently in effect.
- C. Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
  - 2.1.
  - 2.1.1.
  - 2.1.1.A.
  - 2.1.1.A.1.
  - 2.1.1.A.1.(a).
  - 2.1.1.A.1.(a).I.
  - 2.1.1.A.1.(a).I.(i).
  - 2.1.1.A.1.(a).I.(i).(1).
- D. Check Sheets** - When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the pages contained in the tariff, with a cross-reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some pages). The tariff user should refer to the latest Check Sheet to find out if a particular page is the most current on file with the Commission.

All state and local taxes (i.e., gross receipts tax, sales tax, municipal utilities tax) are listed as separate line items and are not included in the quoted rates.

**2.6.1. Public Telephone Surcharge**

In order to recover the Company's expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all interstate, intrastate and international calls that originate from any domestic pay telephone used to access the Company's services. This surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with the Company's service, applies for the use of the instrument used to access the Company's service and is unrelated to the service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Public Pay Telephone Surcharge applies to the initial completed call and any re-originated call (i.e., using the "#" symbol).

Whenever possible, the Public Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.

The Company may request that the confinement facility adopt, as part of its program, terms that enable the Company to collect the charges for all inmate calls, including without limitation, the blocking of calls by the Company to certain telephone numbers when the amount charged to such a telephone number exceeds a predetermined amount or becomes past due.

**SECTION 3 - DESCRIPTION OF SERVICES (CONT'D.)****3.4 Encartele Prepaid Institutional Calling Services****3.4.1 General**

Encartele Prepaid Institutional Calling Services provide alternative payment arrangements to traditional collect calling for inmates in Correctional Institutions and those whom they call. These prepaid institutional calling services are designed to accommodate the needs of :

- Called parties who utilize the services of local exchange carriers that do not offer third party billing of collect calls;
- Called parties whose credit history is inadequate to receive collect calls and/or who wish to budget their monthly expense for collect calls;
- Inmates (calling parties) who wish to utilize their commissary funds to pay for their calls;
- Inmates (calling parties) who wish to place calls to phone numbers which are blocked from receiving collect calls.

Prepaid Institutional Calling Services are not subject to the Deposit and Advance Payment provisions found in Section 2.

Two options are available with Prepaid Institutional Calling Services. The first option, MinuteMizer Service is a prepaid collect Service that allows the Called Party who receives collect calls from inmates to set up his/her own prepaid account. The second option, Prepaid Debit Account, allows the inmate to set up his/her own prepaid account at the Correctional Institution.

**A. Option A: MinuteMizer Service**

MinuteMizer Service is available for those parties (Customers) who receive collect calls from inmates in Correctional Institutions. A prepaid account is set up by the Company for the Customer. Once an account is established, all collect calls from the facility to the telephone number associated with the prepaid collect account are automatically processed as prepaid collect. If the payment into the account is provided via the Customer's credit card, credit verification procedures are carried out under the terms specified in Section 2 of this tariff. Deposits to the account are paid to and handled by the Company via arrangement with a specified financial institution. The Company does not engage in direct monetary transactions with the inmate.

**SECTION 3 - DESCRIPTION OF SERVICES (CONT'D.)****3.4 Encartele Prepaid Institutional Calling Services, (Cont'd.)****3.4.1 General, (Cont'd.)****A. Option A: MinuteMizer Service, (Cont'd.)**

The Company's system automatically announces the available usage balance remaining in the prepaid account prior to acceptance of the call. Network usage is deducted from the available usage balance in the account on a real time basis as the call progresses. The Called Party will also receive a reminder message when the account balance has one minute of usage remaining. All calls must be charged against an account that has sufficient available balance. Calls in progress will be terminated by the Company if the balance on the account is insufficient to continue the call.

**B. Option B: Prepaid Debit Card**

With a Prepaid Debit Card, each inmate has the option to transfer funds from his/her commissary account to their telephone account. This is accomplished by facility personnel or through a direct interface between the commissary system and the inmate phone system. This account is associated with the inmate's Personal Identification Number (PIN.) When the inmate places a call, he/she has the option of calling collect or prepaid/debit. Once debit is selected, the inmate enters the PIN and called telephone number. All deposits to the account are paid to and handled by the Institution. The Company receives payment from the Institution; it does not engage in direct monetary transactions with the inmate.

The Company's system automatically informs the caller of the available usage balance remaining on the prepaid debit card, and provides prompts to place the call by entering the destination telephone number. Network usage is deducted from the available usage balance in the account on a real time basis as the call progresses. The account holder will also receive a reminder message when the account balance has one minute of usage remaining. All calls must be charged against an account that has sufficient available balance. Calls in progress will be terminated by the Company if the balance on the account is insufficient to continue the call.

For debiting purposes, call timing is rounded up to the nearest one (1) minute increment for each call. Usage charges are computed and rounded up to the nearest penny on a per call basis. Prepaid accounts (Options A and B) may be replenished; the minimum initial deposit or replenishment amount is \$20.00. Higher amounts of the account holder's choosing may be deposited in additional five-dollar increments.
